Life Not Beauty

Life is not about how you live, but how you love. It's not about how you spend your money, but how you spend your time. It's not about how you look, but how you feel. It's not about how you live, but how you love. It's not about how you spend your money, but how you spend your time. It's not about how you look, but how you feel. It's not about how you live, but how you love.
