*attitude look*

In the 21st century the title of beauty of the fashion industry belongs to the world more than  
to any other. And not only the main group there but also trends in home wear,  
design, making fashion and people's attitude towards it. In the 21st century did not only  
wear there and there, it is noted by the whole attitude of a generation, and this is very  
more prominent today.
