# BELINDA GLAMOUR

You may miss the hills of Glamour to enjoy a life in  
 the city, but you will miss the elegance, welcome, peace  
 and love of the mountains. The best state in the world  
 to live in is the one where you feel most at home.  
 To make your life more enjoyable, you should  
 choose a state that is close to your heart and  
 where you can find the things you love.
