# AL'MARINA

There is something about the feeling you get when you think  
what you are, what you want to explore by the way you dress and the  
way to live.

B

It is part of the body and soul of  
the people of the time, with all its values, its  
history and the experience of a civilization  
in which, there are not only the things  
of the past.

It's not just what you do, it's how you do it. It's not just what you say, it's how you say it. It's not just what you think, it's how you think. It's not just what you feel, it's how you feel. It's not just what you want, it's how you want it. It's not just what you need, it's how you need it. It's not just what you have, it's how you have it. It's not just what you are, it's how you are. It's not just what you do, it's how you do it.

CREATIVE ELEGANCE

966-004

"The idea is part of the body and it  
changes with the time and the place. The  
idea is not the property of a particular  
individual. It is an idea and it is not  
mine."

There is a story behind every  
fabric. The one that tells of the  
time and place it was made. The  
love and care that went into  
its creation. The one that makes  
it unique.

*Captured moments*

Nothing is part of the story or every  
change of the time with all the love  
The heart is on the spreading, it's not  
where it holds. The heart and soul  
are always in love.

WE NEED  
BEAUTY

There is a need for beauty in all things of the earth, and of ourselves. For we are not the appearance of a creature on earth. We are not the body of a creature on earth.

"Fashion is a part of the body, but it is not the body itself. It is a part of the mind, the soul, and the spirit. It is a part of the culture, the art, and the life. It is a part of the world, the time, and the place. It is a part of the story, the dream, and the hope. It is a part of the love, the passion, and the desire. It is a part of the beauty, the grace, and the elegance. It is a part of the joy, the happiness, and the freedom. It is a part of the life, the love, and the light."
