# LET YOUR LIGHT SHINE

It is a passion, believe it or not, that drives me to all people and the industry as a whole. I am not just a designer, I am a soul in a form, a creator of art. The standard of excellence I want to keep is to make things which are a feeling, which is an art of life, and not just a piece of fabric.

The one who keeps fashion and style ahead in any celebrations represents her irresistible affection towards the fashion world.
